4/4 Features

12/12 Requirements (For Sprint 1)

Burndown rate: *100%*

Retrospective

What Went Wrong (Team Level):

- Overlap in responsibilities, managing who will take what
- No full group meetings due to conflicting schedules

What Went Well (Team Level):

- Great weekly progress, most work completed before or on time
- Constructive criticism is apparent and welcomed

Analysis & Improvement Plan (Team Level):

- More member communication and collaboration
- More effective communication between meetings

Sprint 2 Plan

- Create a mascot that also acts like a chatbot (Monkey-see Monkey-do)
- Group to-do list for team projects
- Repeating to-dos
- Email notifications (SMS - Maybe)

Screenshots

The screenshot shows a web browser window with the address bar at `http://localhost:3000`. The browser's bookmark bar includes links to YouTube, a guitar tutorial, and various folders like NKU, Music, Finance, Games, Web Dev, Job Applications, News, Edge Research, Audio, and AI-Tools.

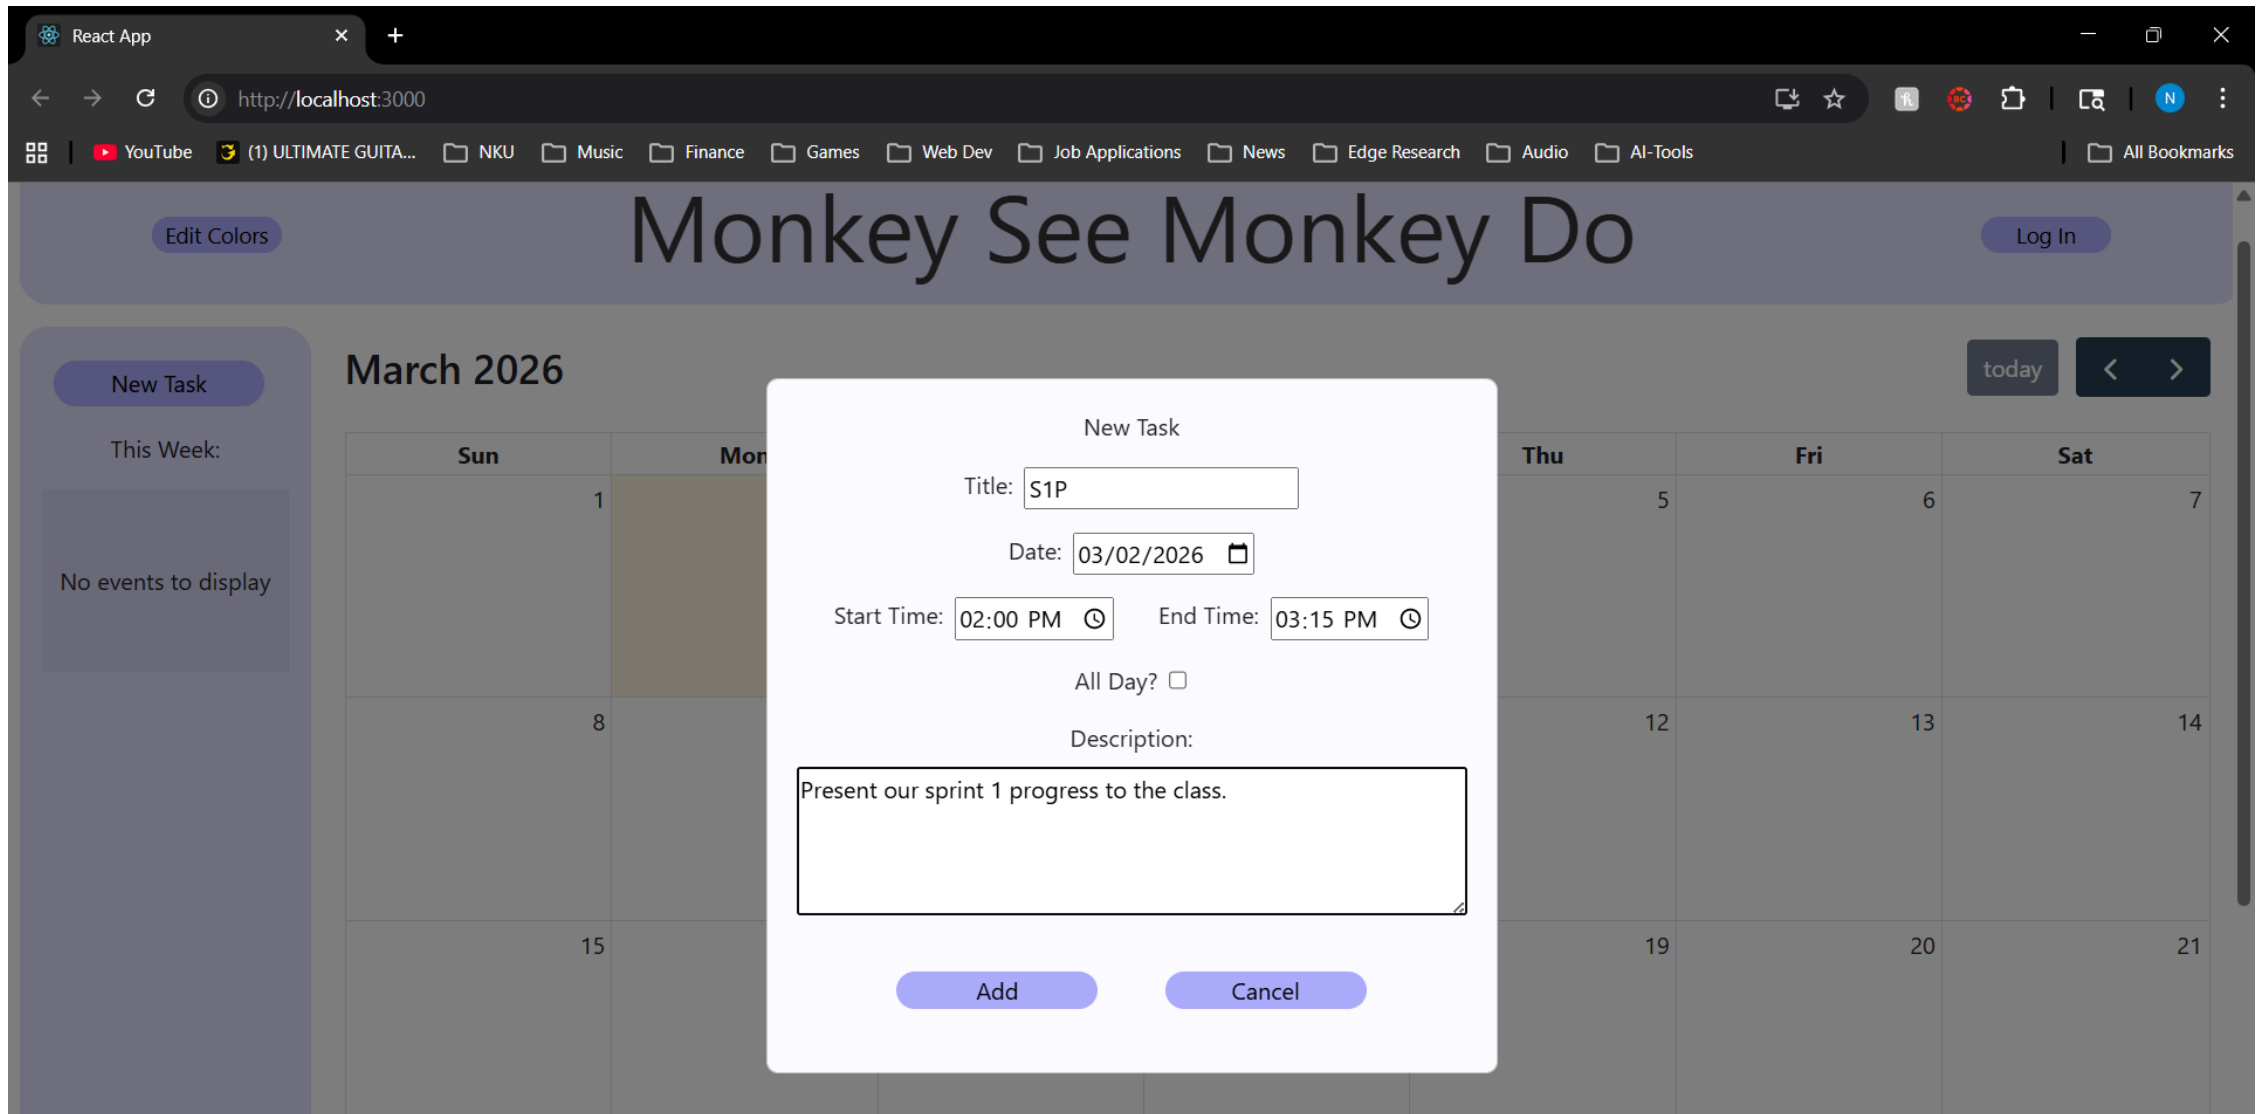

The web application has a light purple header with the title "Monkey See Monkey Do" in the center. To the left of the title is an "Edit Colors" button, and to the right is a "Log In" button.

Below the header, on the left, is a sidebar with a "New Task" button and a section labeled "This Week:" containing a message box that says "No events to display".

The main content area displays a calendar for "March 2026". At the top right of the calendar are buttons for "today", a left arrow, and a right arrow. The calendar grid has columns for the days of the week (Sun, Mon, Tue, Wed, Thu, Fri, Sat) and rows for the dates. The date "1" under the "Mon" column is highlighted in yellow.
